

NEW GENERATION

Solar Pro Collection

Sauleda
Since 1897

*What becomes a collection
begins with an idea,
brilliant in colour,
woven in fabric,*

*But the power remains
in the imagination,
this is the story of Sauleda.*

J. Sauleda

Sauleda
since 1897

The *mission*

Sauleda is an innovative and creative manufacturer of technical fabrics for sun protection, as well as the nautical and upholstery industry. Since Sauleda was first established in 1897, it has had one objective: to manufacture high quality and design fabrics. More than one century later, we continue to remain true to this vision.

19

Our *principles*

- ✓ Help our clients grow
- ✓ Develop deep knowledge of the market, the client and their needs
- ✓ Invest in innovation
- ✓ Look for significant and lasting competitive advantages
- ✓ Develop creative and original marketing
- ✓ Develop positive relationships
- ✓ Encourage a desire to try new things
- ✓ Follow the principles of total quality
- ✓ Follow the principles of work safety and respect for the environment
- ✓ Respond to clients through our product warranty policy

A worldwide company

LEADER IN

PLANTS

PREMIUM
QUALITY

Certified quality

ISO 9001 is an internationally recognized quality management system (QMS). The ISO 9001 standard is a global reference in QMS, surpassing one million certificates worldwide. Providing the infrastructure, procedures, processes and resources needed to help organizations control and improve their performance and lead them towards efficiency, customer service and product excellence.

The STANDARD 100 by OEKO-TEX® is a worldwide consistent, independent testing and certification system for raw, semi-finished and finished textile products at all processing levels, as well as accessory material used. It guarantees that Sauleda fabrics are made without any identified harmful substance that could be a danger to health, skin or the environment.

Solar Pro

100% Solution Dyed Acrylic

LATEST TRENDS IN DESIGNS, COLOURS AND TEXTURES

We create environments and emotions. Bright colours, modern designs and trends. Sauleda not only manufactures awning fabrics but also authentic indoor and outdoor decorative solutions. What is the result? Designs and tonalities that inspire solutions for every moment. Choosing a Sauleda canvas means having the support of a great brand and the broadest catalogue in the market. In each case, Sauleda offers the solution best suited to the daily needs of the consumer.

2

EXCELLENT COLOUR FASTNESS AND OUTDOOR RESISTANCE

Solar Pro fabric is 100% acrylic solution-dyed, ensuring optimum colour resistance to UV rays and ensuring durability of colour and outdoor resistance over time.

There is no comparison with the ordinary processes of dyeing, in which the yarn of the fabric is simply inked, so that the dye only penetrates superficially in the external layers and the colour does not stand the test of time.

Colour fastness after 10 years

Our Fabrics

SOLUTION DYED ACRYLIC

Other Fabrics

YARN DYED

3

ENERGY SAVING

Choosing a suitable solar protection fabric significantly improves the energy performance of buildings, contributing to a reduction in energy consumption during the hottest months.

5

EASY CLEANING AND MAINTENANCE

The Sauleda Fabric Protector coating on our fabrics creates a barrier effect, strengthening water-repellency and retarding the adherence of dirt.

These fabrics require little maintenance : just follow our five basic tips :

- ✓ Remove the dirt from the fabric regularly with a soft brush.
- ✓ If necessary wash with a sponge, neutral soap and water at a maximum temperature of 30 ° C. Rinse with water.
- ✓ Do not use abrasive products.
- ✓ In the winter, store the awnings in a cover.

4

UP TO 10 YEAR WARRANTY

Sauleda has tested the durability of its fabrics and we offer a warranty policy to our clients. After many years, checks and test have been performed in prestigious laboratories, the result show that Sauleda fabrics last longer than the years indicated in the warranty. Therefore, we offer a warranty of up to ten years in the case of normal exposure to the sun and to atmospheric agents.

What does the warranty cover?

The warranty covers any unusual wear and tear of fabric or colour and it is applicable as of the date of the awning installation. Check warranty conditions at www.sauleda.com

A breath of fresh air

Transform fabrics into a self-cleaning air purifiers to enjoy a good life quality.

The surfaces treated with Green[®] prevent the growth of dirt and reverse contamination on the outside surface. Inside Green[®] eliminates odors and improves air quality. Buildings and windows are kept cleaner. Indoor air is healthier and odorless.

Long-term application saves time, money, water, chemicals and energy.

Benefits

POLLUTION CONTROL

The roads, bridges and buildings treated with Green[®] use sunlight to consume smog and become solutions to pollution.

SELF CLEANING

"Sun washing" with Green[®] reduces pressure washing time and cost.

REDUCES ODORS

Windows, curtains and accessories treated with Green[®] offer a powerful benefit that eliminates odors, molds and provides a sensation of a freshness.

AIR IMPROVEMENT

Green[®] breaks down VOCs (volatile organic compounds) and dust to help improve respiratory health.

SUSTAINABILITY

Achieving environmental gains from air purification, water saving and heat mitigation.

COST SAVINGS

Green[®] is a low cost capital investment, which offers years of savings by reducing washing and preserving facilities.

Pureti has won the iSCAPE project of the European Union to decontaminate European cities with photocatalytic technology. Recognized by Horizon 2020 as one of the ten projects that will shape the EU in the next sixty years.

GREEN
by Sauleda & Pureti

The first fabric to purify the air

A WORLDWIDE INNOVATION

Green® is life quality.

The fabrics treated with this finish, designed by Sauleda and Pureti, clean and purify the air by means of photocatalysis. They eliminate pollutants such as NO_x, SO_x, and VOCs.

This is Sauleda's commitment with environmental care and people's health.
