

An aerial photograph of a coastline. The top half of the image shows a dark blue, textured sea with small waves. A thin, light-colored strip of land or beach separates the sea from a large, green, textured area below. The green area has a fine, grid-like pattern, suggesting a solar farm or agricultural field. The bottom half of the image is a solid dark blue area, possibly a shadow or a different part of the landscape.

Sauleda

SOLAR PRO
MEDITERRÁNEO

MEDITERRÁNEO

The Mediterranean culture, with its eternal beauty and its deep values, feeds the new Sauleda designs.

La cultura mediterránea, con su belleza eterna y sus valores profundos, alimenta los nuevos diseños de Sauleda.

“The inhabitants of the Mediterranean feel beauty with greater intensity”. “Los habitantes del Mediterráneo sentimos la belleza con mayor intensidad”.

Antoni Gaudí

The Mediterranean is culture and emotion. It's a calm sea and an invigorating sun with rays of light that dissolves in the shadow and a very pure blue sky that sees the birth of our way of understanding beauty.

The Greek and Roman canons, the golden ratio... Mediterranean culture is a creative wisdom that transforms the simple into sublime taking care of raw material without masking it. You see it in the architecture, art, gastronomy, but also in a lifestyle that values hedonism, everyday pleasures and sensory enjoyment that small details offer us.

Today that rich and vibrant substance feeds, in a particularly energetic form, global culture. It is the honest, the familiar, the open, the sociable, the optimistic, deep values, the spreading of a joie de vivre that has become universal.

These are the same values that feed the soul of Saulea. Born in a small fishing village, on the shores of a green, blue and turquoise sea, the essence of this hundred-year-old brand is in the family's hard work for generations to offer

technical fabrics that promote well-being as well as symbolize optimism and quality of life.

This technically perfect material is destined to create fabrics with vibrant colors, spaces, shade and comfort that promise happiness in gardens and terraces, fun in leisure places, communication in work spaces or protection in transport.

With the honesty of understanding these values deeply as part of their own history, Saulea creates technical fabrics that transmit and promote the style of Mediterranean life.

Because Saulea is not only the technical answer to your needs, it is also perfectly functional as well as a vital concept and full of emotions.

1 LATEST TRENDS IN DESIGNS, COLOURS AND TEXTURES ÚLTIMAS TENDENCIAS EN DISEÑOS, COLORES Y TEXTURAS

Sauleda creates environments and emotions, bright colors, modern designs, comfort and new trends. It goes beyond manufacturing technical fabrics, creating authentic furnishing solutions. The result? Designs and shades that inspire solutions for every moment. Choosing a Sauleda product means having the support of a great brand and the widest market. Sauleda crea entornos y emociones. Colores vivos, diseños modernos, confort y nuevas tendencias. Va más allá de fabricar tejidos técnicos, crea auténticas soluciones de decoración. ¿El resultado? Diseños y tonalidades que inspiran soluciones para cada momento. Elegir un producto Sauleda significa contar con el apoyo de una gran marca y el catálogo más amplio del mercado.

2 ENERGY SAVING AHORRO ENERGÉTICO

Choosing a suitable sun protection fabric significantly improves the energy performance of buildings by clearly reducing the energy consumption during the hottest months. Elegir un tejido de protección solar adecuado mejora de forma importante el rendimiento energético de los edificios al reducir de forma evidente el consumo energético durante los meses de más calor.

3 UP TO 10 YEARS GUARANTEE GARANTÍA HASTA 10 AÑOS

Sauleda continually verifies the durability of its technical fabrics, which is why its guarantee policy is extremely rigorous. After many years and tests carried out in prestigious laboratories, the results show that Sauleda fabrics remain in perfect condition for more years than their own guarantee indicates. In its rigorous commitment to the customer, the brand offers a guarantee of up to ten years in the event of abnormal deterioration of the fiber and color of the fabric under normal conditions of sun exposure and atmospheric agents, counting from the date of installation. You can see the warranty conditions at www.sauleda.com. Sauleda verifica continuamente la durabilidad de sus tejidos técnicos, por ello su política de garantía es extremadamente rigurosa. Después de muchos años, tras pruebas realizadas en prestigiosos laboratorios, los resultados muestran que los tejidos Sauleda se mantienen en perfecto estado más años de los que indica su propia garantía. En su riguroso compromiso con el cliente, la marca ofrece hasta diez años de garantía en caso de que se produzca un deterioro anormal de la fibra y del color del tejido en condiciones normales de exposición solar y de agentes atmosféricos, contando desde la fecha de instalación. Puede ver las condiciones de la garantía en www.sauleda.com.

4 **MAXIMUM COLOR DURABILITY AND WEATHER RESISTANCE** MÁXIMA DURABILIDAD DEL COLOR Y RESISTENCIA A LA INTEMPERIE

Solar Pro fabric is dyed directly into the acrylic fiber mass, ensuring optimum color resistance to UV rays and guaranteeing color durability and weather resistance over time. It is a process incomparable with the ordinary dyeing processes of other brands in which the thread of the fabric is simply dyed, which means that the dye only superficially penetrates into the outer layers and, consequently, the color does not survive the passage of time. El tejido Solar Pro es tintado directamente en la masa de la fibra acrílica, asegurando una óptima resistencia del color a los rayos UV y garantizando la durabilidad del color y la resistencia a la intemperie a lo largo del tiempo. Es un proceso incomparable con los procesos ordinarios de tintado de otras marcas en los que se tinta simplemente el hilo del tejido, lo que hace que el tinte solo penetre superficialmente en las capas externas y, en consecuencia, el color no resiste el paso del tiempo.

5 **EASY CLEANING AND MAINTENANCE** FÁCIL LIMPIEZA Y MANTENIMIENTO

The Sauleda Protector finish repels water and dirt, making it easy to clean and maintain the fabric year after year. Only these four basic tips should be followed. El acabado Sauleda Protector repele el agua y la suciedad, facilitando la limpieza y el mantenimiento del tejido año tras año. Solo deben seguirse estos cuatro consejos básicos:

- **Vacuum dirt periodically. If necessary, clean with neutral soap, a sponge and water at a maximum temperature of 30°C. Rinse only with water.** Aspirar la suciedad periódicamente. Si es necesario, limpiar con jabón neutro, una esponja y con agua a una temperatura máxima de 30°C. Aclarar solo con agua.
- **Always let the canvas dry completely before rolling or folding it.** Dejar secar siempre completamente la lona antes de enrollarla o plegarla.
- **Never use abrasive products.** No utilizar nunca productos abrasivos.
- **Always store the awning in a cover during the winter months.** Guardar el toldo siempre en una funda durante los meses de invierno.

PLAINS LISOS

Sauleda Masacril Lisos fabrics are resistant to fading, offering up to 10 years of fabric colour guarantee. Acrylic fabrics, as the thread is directly dyed, provide great resistance to stains, increase colour stability, and extend the life of the Fabrics.

Maintenance

SOLAR PRO

Fabrics maintenance

Our basic advice

The more we take care of the fabric, the longer we will be able to enjoy it.

Apply to the Fabric and then rinse with plenty of water.

Regularly remove dirt by brushing or gently vacuuming the fabric.

Clean regularly with a jet of water at medium pressure.

Occasionally use a solution of water (maximum temperature 30°C) and neutral soap.

Never apply heat sources. No hot water or high pressure cleaners.

Allow the Fabric to air dry completely.

Do not use solvents or abrasive detergents.

Structure

SAULEDA LISOS
Sauleda Masacril® 100 %
Solution Dyed Acrylic
Sauleda Masacril® 100 %
Acrílico Tintado en Masa

100% mass-dyed acrylic fabric. Color pigments are infused into the core of each yarn used to weave a Sauleda fabric. This is what makes Sauleda fabrics have unmatched color fastness and fade resistance, making the colors shine and stay bright for a longer period compared to surface-dyed fabrics.
